

K-Love radio is a valuable resource to me. It encourages me to be a better citizen and if it is displaced by an LPFM station, I feel that the effects would be far reaching. KLOVE serves the community with positive and encouraging music, news, and more. Other stations cannot say the same. Other stations serve their own interests and KLOVE serves the public interests. They are listener supported, and if the listeners support it, it should be allowed to stay on air and not be displaced by "LPFM" Allowing LPFM to displace the translator service would be a terrible disservice to me and my community.

Thank you,
Wendy G. Dulaney
